FULL STACK SOFTWARE DEVELOPER

After 8 years in freight operations, I am excited to pursue a new career in software development. I appreciate being challenged at work and have found some interesting similarities between operations and coding including problem-solving and identifying trends and patterns. One of the key differences, and something I'm really enjoying, is that coding produces tangible results – I love the feeling of building things with my own hands. When not coding I enjoy riding my bike, playing video games, and cooking – and always with music on.

TECHNICAL SKILLS SUMMARY

Languages	CSS HTML JavaScript
Frameworks	MongoDB React Node.js
Version Control	Git GitHub
Development	Visual Studio Notepad++

PROFESSIONAL EXPERIENCE

Capstone Company TBD	VT	Jul 2021 – Aug 2021
-----------------------------	-----------	----------------------------

Developer – Capstone Project, Burlington Code Academy

Will be a member of a 4-person team – project specifics TBD.

TForce Freight (formerly UPS Freight)	Burlington, VT	Sep 2019 – May 2021
--	-----------------------	----------------------------

International LTL/Truckload company owned by Canadian company TFI International.

Outbound (Operations) Supervisor

Led the PM shift with primary responsibility for outbound p.m. operations and logistics including loading and unloading, dynamic lane decisions, pickups and deliveries, driver schedules and safety, damages, etc. A significant amount of time was spent on customer service, communicating directly with customers regarding their unique needs and handling unexpected challenges.

- Led a team of ~15 workers; continuously met and/or exceeded daily and quarterly benchmarks

FedEx Freight	Berlin, VT	Nov 2013 – Jun 2019
----------------------	-------------------	----------------------------

The business unit of the FedEx enterprise handling LTL and Truckload services both nationwide and internationally.

Team Lead (Outbound Supervisor)	Feb 2018 – Jun 2019
--	----------------------------

Freight Handler, Quality Coach, Driver Apprentice	Nov 2013 – Feb 2018
--	----------------------------

Held several roles over the years – started out as a Freight Handler right out of high school and quickly became one of the best workers on a forklift. Took on the responsibility of Quality Coach tasked with recuperating damaged freight and ensuring bay freight was loaded for maximum efficiency. As a Driver Apprentice, obtained a CDL permit and required endorsements while working on the dock. As Team Lead, in addition to handling freight, took over customer service communication and dispatch board assignments.

Other Jobs	VT	2006 – 2013 & 2016 – 2018
-------------------	-----------	--------------------------------------

C.P. Dudley Store, East Montpelier, VT	Deli Worker	2016 – 2018
