FULL STACK SOFTWARE DEVELOPER

In a world where we are constantly being divided by ever increasing animosity toward one another I strive to be a friendly face to lend a helping hand whenever anyone seeks out my assistance. I am also a firm believer in not asking someone to do something I myself wouldn't do. When something is new and interesting to me I want nothing more than to be fully immersed in the subject matter to become more affluent in the topics involved. New things can definitely be scary sometimes but I welcome the challenge.

Identifying trends and patterns

Being a friendly and helpful person wherever possible

Playing video games

Cooking

Working out

Riding my bike

PROFESSIONAL EXPERIENCE

| Capstone Company Name | Location | Jul 2021 – Aug 2021 |
|-----------------------|----------|---------------------|
|-----------------------|----------|---------------------|

Company description

Developer – Capstone Project, Burlington Code Academy

Member of a #-person team tasked with significant revamping of the online resource library, adding dynamic search capabilities, and creating an efficient resource management portal. Incorporated agile methodology, collaborative pair programming, and regular and frequent client check-ins.

- Created admin portal optimized with full CRUD functionality for straightforward resource and tag management
- Populated new Firestore database with set of existing resources after applying new schema and cleansing data
- Participated in teamwide research to determine the optimal set of frameworks based on project objectives
- Technology used included a FERN Stack (Firebase, Express, React, Node.js), Algolia, CSS3, and GitHub

| TForce Freight | Burlington, VT | Sep 2019 – May 2021 |
|----------------|----------------|---------------------|
|----------------|----------------|---------------------|

TForce Freight, formerly UPS Freight, is an international LTL/Truckload company owned by canadian company TFI International.

Outbound Supervisor

As the outbound supervisor for TForce Freight it was my responsibility as the only supervisor on duty for most of my shift to be the leader of my shift. A lot of my job was boring customer service type activities. It was my job to make sure the pickups and deliveries were being done in a timely and efficient manner while also making sure my drivers were getting home at the end of each safe and in one piece. I was also in control of our cross-dock operation at night where I had to make sure the freight we were picking up was making it to the right door to be correctly loaded on the right trailer to make it to the customer.

- Lead a team of roughly 15 workers
- Continuously met and/or exceeded expectations for my center

| FedEx Freight | Berlin, VT | Nov 2013 – Jun 2019 |
|---------------|------------|---------------------|
|---------------|------------|---------------------|

FedEx Freight is the business unit of the FedEx enterprise that handles all of their LTL and Truckload services both nationwide and internationally.

Team Lead

Feb 2018 – Jun 2019

Freight Handler, Quality Coach, Driver Apprentice

Nov 2013 – Feb 2018

(Dock Worker, Dock Mentor)

Having worked at FedEx for so long I have had the opportunity to work several job titles trying to find something that worked for me. I started out just as a Freight Handler right out of high school and very quickly became one of the best workers on a forklift. After a

couple years of experience I had taken on the title of Quality Coach while on the morning shift where it was my responsibility to recuperate any damaged freight that had come in and make sure driver stops started being loaded as early as they could. From there I worked full time as a Driver Apprentice getting my CDL permit and required endorsements while working on the dock. Decided I didn't want to become a driver and tried out the Team Lead last of all. This job was essentially supervisor lite where I had some customer service type responsibility as well as dispatch board assignments. Overall I was a glorified Freight Handler that had to answer the phone during down time.

| Other Jobs | VT | 2006 – 2013 & 2016 – 2018 |
|--|-----------------------|--------------------------------------|
| C.P. Dudley Store, East Montpelier, VT | Deli Worker | 2016 – 2018 |
| Champlain Valley Mobile Care, Richmond, VT | Carpenter's Assistant | PT/Seasonal 2006 – 2013 |
